Subrahmanya Shivaram Hegde

AI Engineer | Agentic AI · RAG · Edge LLMs

Bengaluru, India | +91 7019742330 | subrahmanyashegde2413@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

AI Engineer with 1+ year of industry experience building production RAG systems, multi-agent LLM applications, and edge AI pipelines in Python. Skilled from FastAPI microservices and local LLM optimization to Dockerized GCP deployments with CI/CD. Currently building an on-premises restaurant ordering platform with a recommendation engine.

Work Experience

Openecore Private Limited (formerly Kruthak Technology) Bengaluru, India
Associate AI Engineer *Jun 2026 – Present*

- Building an **on-premises restaurant ordering platform** with **tablet ordering**, a real-time **Kitchen Display System**, and an **admin console**, all with **zero cloud dependency**.
- Structuring order data to power a **recommendation engine** for personalized dish suggestions and menu insights.

Kruthak Technology Private Limited Bengaluru, India
Junior Edge AI Engineer *Jan 2026 – May 2026*

- Refactored a monolith into **microservices** (Auth, Vision, Analytics), cutting inter-service response time by ~**30%**.
- Engineered **Agentic RAG** for **LexiGuid** using **LangChain** hybrid search over **ChromaDB** and **Qdrant**.
- Optimized local LLMs (**Gemma**, **Ollama**) via **quantization**, cutting latency by ~**40%** on low-spec devices.
- Automated **CI/CD** to **GCP Cloud Run** with **GitHub Actions**, cutting deploy time from ~**45 to ~8 min**.

Software Engineering Trainee *Jul 2025 – Dec 2025*

- Built the **LexiGuid MVP**: **RAG pipeline** and **Qdrant** vector search on Dockerized **FastAPI** services on **GCP**.
- Built a **Python + OpenCV** video-to-frame pipeline for **COFRO**, a **YOLOX** coffee ripeness detector.
- Annotated ~**30K images** (**7 classes**) in **Roboflow**, augmented to ~**300K**, for a model deployed on **Hailo-8L**.

Projects

Pallavi Bakery Bot — Multi-Agent AI Ordering Assistant | GitHub | Live Apr 2026 – May 2026
Python, Google ADK, Gemini, FastAPI, MongoDB, Razorpay, Next.js

- Architected a **5-agent** Telegram bot (**Google ADK**, **Gemini**): **1 orchestrator**, **4 agents** with **23 tools**.
- Automated order lifecycle (cart, checkout, cancel, reorder, tracking) with **FastAPI**, **MongoDB**, **Razorpay**.
- Gave staff **7 in-chat admin tools** for order and menu management, plus a **Next.js** QR ordering site on **Vercel**.

SimplyReview — AI Literature Review Assistant Feb 2025 – May 2025
Python, LangChain, Qdrant, RAG, Knowledge Graphs

- Mapped **50+ papers** (~**2,000 pages**) into a **knowledge graph** of **1,200+ concepts** and **3,500+ links**.
- Implemented **semantic search** and **RAG** over **15K+ Qdrant embeddings** with **sub-second** retrieval.
- Reduced manual literature review time by ~**60%** compared with reading papers individually.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL, Java, C
AI / LLM: LangChain, LangGraph, Google ADK, Agentic RAG, Multi-Agent Systems, Gemini, Gemma, Qwen, Ollama
ML & Edge AI: TensorFlow, Scikit-Learn, OpenCV, YOLOX, Roboflow, Quantization, Hailo-8L
Backend & Data: FastAPI, REST APIs, Pydantic, Microservices, MongoDB, PostgreSQL, MySQL, Qdrant, ChromaDB
Cloud & Tools: GCP (Cloud Run, Artifact Registry), Docker, GitHub Actions, CI/CD, Vercel, Next.js, Git, Tailscale

Education

Vivekananda College of Engineering & Technology Puttur, India
Bachelor of Engineering in Artificial Intelligence & Machine Learning | CGPA: 8.83/10 *Dec 2021 – Dec 2025*
